Claim Rejections - 35 USC § 112

1. Claims 2 and 4-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 should be amended so to be consistent with the language of claims 1. Change expense information is entered to "entering further expense information."

In claims 4-11, the scope of the "system" as seen in the preamble is vague and indefinite. The system claimed components comprise of only a card and a computer readable document. Claim 4, reads, recursively, on "said system" transferring information from said card to said document. Clarification is requested. Also, claim 11 fails to further limit the "system" of claims 1 and 7.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Tagnazzina, USP 5739512.

The reference teaches a method of swiping a card with an embedded email address (col. 2, ln. 23). The reference teaches that the card stores and transmits receipt information (col. 2, ln. 19). The applicant's limitation "with manual intervention" is

anticipated by any step performed by the microprocessor (col. 4. In. 25) Lastly, the reference teaches of sending the information to the users email server (col 3. In. 15).
